Client Testimonial

Our collaboration with Sleepnet has been incredibly beneficial for our young patients and their families. The quality of Sleepnet's masks, especially in the pediatric range, is outstanding. Their masks are not only effective but also designed with the comfort and needs of children in mind. We're particularly grateful for their prioritization of pediatric orders, ensuring that our most vulnerable patients receive the care they need promptly. The level of service from Sleepnet is exceptional. They are responsive, understanding, and always willing to go the extra mile to assist us. Working with Sleepnet, it's clear that they genuinely care about making a positive impact on children's health.

Our Mission

Is to create life enhancing respiratory products that are accessible to all.

Our Vision

Our passion for innovation drives us to help people breathe easier.

Ensuring Quality and Accessibility

At Sleepnet, we prioritize quality control to ensure the safety, reliability, and effectiveness of our respiratory masks. Our process includes customer feedback, research and development, thorough testing, and global regulatory compliance. With a focus on continuous improvement, careful material selection, and comprehensive testing, we ensure patient safety and accessibility.

Sleepnet[®] Press Kit

Breathe Easier. Live Better.

At Sleepnet[®] we believe in building high-quality respiratory products that help people lead healthier lives.

AIR°gel® Technology

Sleepnet's AIR°gel® enhances comfort and performance with medical-grade silicone gel that contours to each face, ensuring a secure seal and minimizing air leaks. Soft and flexible, it reduces irritation for comfortable, long-term wear.

Custom Fit Technology

Sleepnet's Custom Fit Technology uses a flexible material that adapts to changes in weight and facial asymmetry. This technology allows users to shape the mask by gently molding it for a secure, consistent fit.

Products

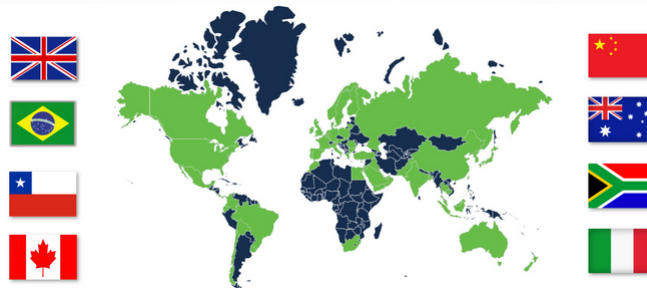

To help people live healthier lives, Sleepnet offers our customers 15 different mask styles and 4 respirators to choose from. We truly believe that our products are the best, and years of reinvention and expertise have allowed us to build the safest and most comfortable masks in the market.
